Hello fellow shellfish gardener,

It's getting close to time to plant your shellfish garden! Our annual Seed Sale will be **Saturday, May 18th, 8:00 am- 10:30 am**. This coincides with a good low tide in the late morning for planting.

I have attached an order form. The good news is that we have triploid seed (non-reproducing) and Kumo's! We will have a **TWO** Bag limit per person, SOLD by the weight. A 1-Liter bag has approximately 300-500 oysters/bag, depending on size. Please be sure to specify on the order form the physical location where your seed will actually be planted (either the street address or parcel/lot number). There is a good reason for this requirement. When you purchase seed from PSRF, you will be covered under our transfer permit and we can give your seed a clean bill of health! This is because all the seed that we provide is purchased from a State-certified source – Taylor Shellfish. Seed should not be purchased from uncertified sources, since it could potentially introduce disease organisms into local waters. For instance, oysters should never be purchased from a grocery store and then put out on the beach. If the shellfish comes from out of state or even another basin within the state, this could inadvertently cause problems.

Feel free to pass this email along to friends. There will be a garden installation demonstration on the lawn at 9:30 am for those who want extra instruction.

We need to receive your orders by May 10th. We will **only be accepting pre-orders & payment, so plan ahead!** If you have any questions, please feel free to call or email Wendy at 206-780-6947 or wendy@restorationfund.org. I look forward to seeing you; coffee and doughnuts will be waiting for you!

NEW Seed Sale Location: Puget Sound Restoration Fund Office, 8001 Day Road West, Bainbridge Island.

****All seed must be picked up at the seed sale. PSRF cannot be responsible for holding seed.**

Cheers,

Wendy Welch
